

Energy Savings You Can See To Minimize Utility Expenses

**Quantum™
Top Load Washer**

Per cycle savings:

Water 11% (3.89 gal)

Model # SWNLC2P/2S

MEF 1.34

WF 9.4

DOE Compliant

29.7 gal. per cycle

EcoWatersaver™

**Quantum™ Front
Control Front Load
Washer**

Per cycle savings:

Water 62% (20.7 gal)

Energy 66% (.780 kWh)

Model # SFNLCFS

MEF 2.24

WF 4.5

12.8 gal. per cycle

EcoWatersaver™

**Quantum™ Stack
Washer/Dryer**

Per cycle savings:

Water 62% (120.7 gal)

Energy 66% (.780 kWh)

Model # STELCFS/STGLCFS

MEF 2.24

WF 4.5

DOE Compliant

12.8 gal. per cycle

Saving calculation versus conventional commercial top loader using 33.5 gal. of water and average of 5.41 gal. hot water. Calculations based on DOE Appendix "J1" Test Procedure. 10.9 lbs for top loaders and 12 lbs for front load washers. Temperature usage factors are 14% hot, 49% warm, and 37% cold.

Speed Queen washers and dryers are commercial built with stainless steel or coated steel panels for long lasting appearance.
